“Quality products that make Koolpak the professionals’ choice”

Introduction to Koolpak

Koolpak has been manufacturing Hot & Cold Therapy products for over 20 years and we are still considered to be the UK's leading manufacturer. The Koolpak brand is regarded to be the market leader and one of the only recognised brands in the Sports and First Aid industry.

We pride ourselves on the quality of our products and all our Class I and IIa Medical Devices are manufactured to the latest ISO quality standards and meet all the strict requirements of the European Medical Device Directive.

Koolpak is also a member of the British Healthcare Trades Association (BHTA) and we adhere to a Code of Practice to ensure that our customers get the correct advice and guidance about our products that they may require.

Our products are regularly used by medical professionals in both Private and NHS hospitals and our Instant Ice Packs are regularly used at NHS Blood donation centres across the country, as they are deemed perfect for patient aftercare.

We are extremely proud to be working in partnership with St John Ambulance, to whom we have supplied dual-branded Koolpak/St John Ambulance Instant Ice Packs to for over 10 years.

The Team Sport First Aid Kit has received endorsements from the RFL, who are the UK Rugby Football League governing body, and by several County Football Associations throughout the UK.

Our products can be found in Retail and Pharmacy outlets throughout the UK, and they are also available on Amazon platforms in the UK and throughout Europe.

St John Ambulance

Considered to be one of the UK's leading suppliers of First Aid Supplies, we provide our Trade customers with extremely competitive prices. Our products are exclusively available through the wholesale distribution network, and unlike many of our competitors, we do not sell directly to the end user.

Koolpak is renowned for its service and commitment to customer care, and our highly trained sales team are always available to help. We offer a next day delivery service, where possible on non-palletised orders received before 4pm. All palletised orders are delivered within 3 days.

Private Label Service

Koolpak has worked alongside some of the UK's major Sports and First Aid brands to help develop their own range of products as part of our private label service.

We can manufacture to your own personal specification and with the minimum order quantities easily achievable, this service can be a perfect option to help promote your own brand.

Please contact our sales team for further information on this service.

- Pack can remain cold for up to an hour at room temperature

CE
1639

Code	Description	Qty Per Case
SP40	Sport Instant Ice Pack - 15 x 23cm - 300gm	40

All Koolpak Instant Ice and Instant Hot Packs are fully compliant with Medical Devices Directive, unlike many other products on the market.

To be used for therapeutic purposes these products must be certified as Class IIa Medical devices and accredited to ISO 9001:2015 and ISO 13485:2016 as required by Medicines & Healthcare Products Regulatory Agency (MHRA). If an Instant Ice Pack or Instant Hot Pack does not show a CE mark and authority number then it is NOT suitable for medical or therapeutic use.

**These products are single use only

Instant Ice Packs

Instant Ice Packs are now seen as an essential item in any first aid kit and because of their multipurpose use they are perfect for treating soft tissue injuries, burns, bruising and for reducing inflammation.

The Original Instant Ice Pack is perfect for wrapping around the injured area due to its longer pack size. The Sport Instant Ice Pack can help speed up recovery times due to the lower temperature that the pack can achieve. The Kool Kids Cold Packs are one of the only first aid items that are recommended for use in schools. The Compact Instant Ice Packs are great for use on smaller areas and provide immediate relief to an injured area.

Original Instant Ice Pack

- The best-selling ice pack on the market
- Longer bag size is ideal for wrapping around injured area
- Minimal risk of cross infection
- Pack can remain cold for up to 40 mins at room temperature

Reusable Moist Heat Pack

The Moist Heat Pack can transfer heat deeper and quicker to the injured area to increase blood flow to help speed up recovery. Its soft fabric material conforms perfectly to the body for enhanced patient comfort.

- Great for pain relief
- Increases blood flow to the injured area and helps accelerate healing
- When heated in a microwave the pack generates a comforting moist heat that is very therapeutic
- The application of Moist Heat is especially useful treating muscle spasms from strain and tension
- Reduces pain in non-acute injuries such as stiffness, arthritis pain, headaches, back or neck pain
- Moist Heat is considered superior to ordinary dry heat because it transfers the heat deeper and quicker to the required area
- Soft fabric material gently conforms to the injured area

Reusable Hot & Cold Packs

Reusable Hot & Cold Packs are perfect for the continuous treatment of an injury at home where you have access to a microwave or freezer.

Use as an Ice Pack during the early stages following injury to help minimise pain and swelling, and as a Heat Pack later to help the healing process by increasing blood flow to the injured area. The packs are ideal for treating a wide range of injuries and they last longer than a standard Instant Hot or Cold pack.

Luxury Reusable Hot & Cold Pack

- Soft, flexible, luxurious pack moulds to the problem area
- Lasts longer and is more effective than a standard reusable pack
- Use cold to reduce swelling and hot for relief from muscular pain
- Pack can remain cold for up to 2 hours at room temperature

Kool Sprays

The Kool Spray is a refreshing spray which aids in soothing muscular discomfort and joint aches by cooling the skin. Ideal to be used after sport or exercise.

Effective for use on stings or insect bites because of its cooling relief. Cooling therapy for muscles and joints is well established and recommended by health professionals and sports physiotherapists.

Kool Sprays

- Instant cooling relief once sprayed on the skin
- Relieves muscle pain and stiffness in cramp, sprains, strains, bruises and lower back pain
- A convenient alternative to an ice pack
- The active ingredients cool the skin, which brings about rapid pain relief
- Can be used during or immediately after exercise
- Ideal cooling relief for stings and insect bites
- Available in 2 sizes

Code	Description	Qty Per Case
FS12	Kool Spray - 150ml	12
FSL12	Kool Spray - 400ml	12

Elasticated Cold Bandages

Elasticated Cold Bandages combine cooling with compression which helps speed up recovery times.

The cold bandages work by drawing the heat from the injured area through evaporation which helps reduce pain and swelling. The bandage is lightweight, easy to apply and doesn't restrict movement around the injured area. With no need for refrigeration, it is ideal for sprains and strains through sports, or for accidents at work or at home.

Elasticated Cold Bandages

- This elasticated bandage combines cooling with compression and is perfect for the immediate treatment of inflammation and bruising of muscles, tendons and ligaments
- While the instant cooling relieves the pain, the compression helps control the swelling around the problem area speeding up recovery times
- The bandage is small, light and easy to use
- The stretchy material can easily fit around any part of the body, making it a great alternative to an instant ice pack
- The bandage can remain cold for up to 2 hours
- Bandage can be cut to required size and remaining bandage can be resealed in airtight zip bag to be used at a later date
- Single use

Code	Description	Qty Per Case
KOOLB/30	Elasticated Cold Bandage - 7.5cm x 2m	30
KOOLB1/30	Elasticated Cold Bandage - 7.5cm x 4.5m	30

Ice Bags

Ice Bags are a fast and effective cold therapy treatment designed to provide immediate treatment. They conform to the area of the body to provide superior cold compression to reduce pain and swelling, improving recovery time.

Ice Bags

- Fill the durable bag with ice cubes or ice-cold water and place the bag onto the affected area to improve recovery
- The pleated design allows the bag fabric to conform to the contours of the body for maximum comfort and effectiveness
- Applying cold compression immediately following an injury drastically improves recovery times
- The bag is reusable, economical and easy to use for all body parts

Code	Description	Qty Per Case
ICEB1/10	Ice Bag Small - 20cm	10
ICEB2/10	Ice Bag Medium - 25cm	10
ICEB3/10	Ice Bag Large - 30cm	10

Ice Bag & Neoprene Wrap

The Ice Bag & Neoprene Wrap is a very effective and efficient way of combining cooling and compression. The Wrap conforms to the area of the body using the velcro attachments to hold the Ice Bag in place, which helps reduce pain and swelling, and improves recovery from an injury.

Ice Bag & Neoprene Wrap

- Ideal for use on body parts such as a knee, ankle, thigh or shoulder
- The Ice Bag is designed to provide immediate treatment for soft tissue injuries, bruises, muscle pain and swelling by moulding around the problem area
- The Wrap is a very effective way of combining cold therapy with compression, to assist with the recovery from injury
- Simply insert the head of the Ice Bag into the centre hole of the Neoprene Wrap and attach to the injured area using the velcro attachments

Includes: 25cm Ice Bag, Ice Bag Wrap 20.5 x 75.5cm

Code	Description	Qty Per Case
RICEWR16	Ice Bag & Neoprene Wrap - 20.5 x 75.5cm	16

Heat & Kool Patches

The Heat and Kool Patches provide powerful dual action heat or cooling therapy and pain relief. The direct to skin application provides up to 8 hours of continuous treatment.

Heat Patch

- Dual action heat therapy and pain relief
- Increases blood flow to the affected area providing aid with the healing process
- Deep muscle relaxation
- Penetrating heat relaxes stiff, sore and aching muscles helping to restore movement
- Helps to relieve neck, back, thigh, arm, calf and shoulder pain
- Direct to skin application
- Air activated
- Lasts up to 8 hours

Code	Description	Qty Per Case

* Size - circumference of joint

Compression Support Range

The multi-directional knitted fabric provides flexible compressive support which aids in the recovery and rehabilitation from injury.

The special weaving technique used in the design of the supports, enables air to flow through the material to regulate heat and minimise sweat. Helps minimise pain and swelling and stimulates blood flow to the injured area to promote healing.

Knee Support

- Helps to relieve symptoms of strains, sprains and arthritis
- Protects and reinforces the strength of the knee joint
- Perfect to help reduce pain and swellings around the knee
- Integrated silicone gel cushion supports the patella

Accessories

We have a range of accessories designed to help assist with the recovery from injury. We recommend that when using a Hot or Cold Pack that you use a cover to prevent the chances of heat or freeze burns.

The Elasticated Holster works similarly to a cover but has a velcro strap which helps to keep the pack on the problem area. The Sports Wrap is very popular with sports physiotherapists as it enables an ice pack to be secured to the injured area to help speed up recovery time. The Ice Bag Wrap is a very effective and efficient way of combining cooling and compression by holding the Ice Bag on the injured area.

Hot & Cold Pack Covers

- Recommended whenever using hot or cold packs directly to the skin
- Prevents any cross contamination
- Reduces risk of heat or freeze burns
- Made from non-woven material
- Comes in 2 sizes to fit small and medium sized hot or cold packs

First Aid

Koolpak offer a comprehensive range of First Aid and Health and Safety products, which comply with the latest BSI and HSE guidelines.

Our products are manufactured to the latest ISO quality standards and the majority of our products are made in the same factories as other well-known brands. Our range includes products such as BSI Compliant Workplace First Aid Kits, Sterile Plasters, Vinyl Gloves, Sterile Eyewash, Elastic Adhesive Bandages and Zinc Oxide Tapes, all of which are available at extremely competitive prices.

British Standard Workplace First Aid Kits

- Compliant with the latest BS8599-1:2019 standard for the contents of workplace first aid kits
- The clearest and simplest way for employees to ensure they have adequate workplace first aid provisions and remain fully compliant with the law
- First Aid printed on the green box for easy identification
- Supplied in sturdy, durable moulded cases with carry handle and wall mounting brackets

BS8599-1:2019 Compliant Workplace First Aid Kits should be selected using the table below as a guide

Level of Risk	No. of employees	Quantity of Size of Kit
Lower Risk i.e. Shops & Offices, Libraries etc.	Less than 25 25-100 More than 100	1 x Small Kit 1 x Medium Kit 1 x Large Kit per 100 employees
High Risk i.e. Light engineering, assembly, food processing, warehousing, construction, chemicals etc.	Less than 5 5-25 More than 25	1x Small Kit 1 x Medium Kit 1 x Large Kit per 25 employees
