266 Wayfarer® 14 mm

Loose lay CiTi™ mats with pressed bevelled borders on all four sides. Vinyl loops scrape dirt and moisture off shoes and trap it in the mat which prevents dirt from being tracked into the building. Made from a durable flexible material that is ultraviolet resistant, the Wayfarer® mat performs well in different climates and adapts to any surface. Spaghetti mats do not absorb water.

The Wayfarer® line offers a choice of backed versions that ensures minimum movement or an unbacked version that allows water to flow through for maximum drainage. Slip resistance tested R11 according to DIN51130 and BRG181. Free of DOP, free of DMF, free of ozone-depleting substances, free of silicone and free of heavy metals.
