

Clean-Step Tack Mat

Dirt control with a difference

- A pad of 'tacky' sheets, with adhesive coating that effectively attracts and contains walked-in dirt and dust for floor cleanliness.
- Once soiled, each sheet is peeled off and disposed of to reveal a clean sheet.
- Ideal for clean rooms, hospitals, general industrial environments, and any area where cleanliness and hygiene is important.
- Fixed to a sturdy rigid backing to keep it in place. Also assists in easy relocation.
- Refill pads containing 60 layers are also available.

Styles Available

Blue

White

Parts
