

# CARBON MONOXIDE (CO) POISONING

## KNOW THE FACTS

Carbon monoxide is the 'Invisible Killer' you can't see, smell or taste. CO can kill you before you are even aware it is in your home.

## KNOW THE SYMPTOMS

HEADACHES

NAUSEA

BREATHLESSNESS

COLLAPSE

DIZZINESS

LOSS OF CONSCIOUSNESS

## KNOW HOW TO STAY SAFE

Fit an audible alarm near fuel burning appliances such as gas stoves, fireplaces, boilers, water heaters and cookers.

Ensure all appliances are maintained and inspected annually if applicable.

Don't forget to test your CO detector often!

LIGHTING • FIRE & CO DETECTION
