

# PROTECTING YOUR PATIENTS

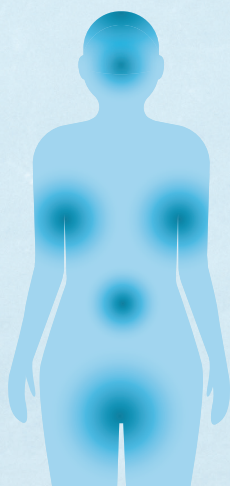

Introducing **Hibiwash®** A NEW full body antimicrobial wash for pre and post operation.

## MICROORGANISMS RESIDUE LEVELS AFTER WASHING:

HIGH

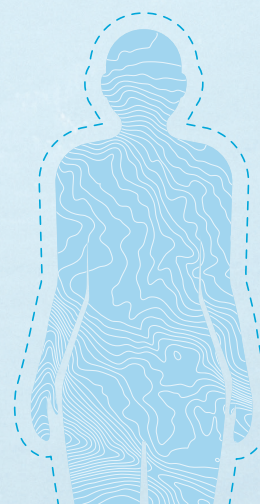

LOW

Unwashed

Soap and water

Hibiwash®

Adoption from Byrne DJ et al.  
Rationalizing whole body disinfection.  
Journal of Hospital Infection  
1990; 15:183-187

Hibiwash®  
bonded to skin

Hibiwash® is your **trusted partner** in helping prevent infections, promote skin's integrity and save time before performing surgical procedures.

Our **NEW full-body antimicrobial Hibiwash®** with 4% Chlorhexidine Gluconate kills microorganisms before and after the operation helping to reduce the **11 in 100 chance** of a surgical site infection.<sup>1</sup>

**Together let's move towards zero.**

Hibiwash® is a medicine, always read the package insert leaflet carefully, consult your physician, nurse or pharmacist and follow the hospital's protocol. Speak to your Mölnlycke contact person for the summary of product characteristics document.
