# Welcowe **To Your Latest Catalogue!**

The new school year is upon us! It's the ideal time to review stocks of essential supplies and assess your schools provisions for everyday needs, emergency plans and preparations for the latest legislative guidance affecting education settings.

Since our last catalogue, 'Martyn's Law' has gained royal assent and a wealth of guidance has been published for schools preparing for compliance, including official preparedness quidance from the Department for Education which refers to products such as School Incident Grab Kits (page 42) and the security principles which can be reinforced with our dedicated range of Security Posters (see page 125).

The Schools (Allergy Safety) Bill has now been introduced to parliament following a review of the stark risks posed by severe allergies in schools. Implementing a best practice policy for responding to anaphylaxis has never been easier or more affordable with Eureka. Individual AAI devices (page 85) cost £99.99, and we've also added:

- NEW! Complete Anaphylaxis Kits from just £249.95, with ongoing restock costs as low as £200 per year (see page 84).
- NEW! Anaphylaxis Awareness Level 2 Training only £21.70! Our new, CPD certified online course can be easily ordered with your other items (see page 83)

That's not all! We've updated our online checkout process so vou can now easily order items containing AAI devices or asthma inhalers online with the rest of your requirements, completing the headteacher verification as you go.

Lastly, we know how tight school budgets have become, and how quickly costs have risen. That's why we've again held prices on over 99% of the range, and continue to offer dozens of Buy 2 Get 1 Free offers and Bulk Savings of up to 48% on the items schools use most. That's in addition to the other benefits of dealing with us.

- FREE & Fast Delivery On All Orders
- Free Box of Biscuits With All Orders Over £150
- Free 30 Day No Quibble Guarantee
- Instant Credit UK Schools Can Pay On Invoice

Now with over 25 years of experience of serving UK schools, our dedicated sales team are here to help you to make your life easy and choose from over 20,000 products. You can order and chat to us online at EurekaDirect.co.uk, call us on Freephone 0800 358 0085, or email us at Sales@EurekaDirect.co.uk.

We look forward to hearing from you soon!

## **SAVE Lives, Time & Money with Eureka!**

Complete & Comprehensive Anaphylaxis Kits From £249.95 with annual restock costs as low as £200!

## **EUREKA ANAPHYLAXIS KITS**

**Sort Your** For Less!

Up to 50% of allergy sufferers don't carry their adrenaline auto injectors (AAIs) at a given time, and anaphylaxis can affect anyone without warning. Around 680,000 children in England live with allergies. 1 in 4 first-time anaphylaxis episodes, and 1 in 5 fatal food-anaphylaxis cases occur in schools. Dozens of lives have already been saved using emergency anaphylaxis kits.

**ALREADY HAVE ENOUGH BACK UP DEVICES?** 

ou can also buy empty Anaphylaxis Kits for only £59.95 - so you easily add existir

EpiPen and Jext devices for emergency access and restock when they expire.

#### All of our Koolpak Instant Cold Packs are fully compliant with the Medical Devices Directive, unlike many other ice packs on the market

- To be used for therapeutic purposes, instant ice packs must be certified as class IIa medical devices and be accredited to ISO 9001: 2016 and ISO 13485: 2016. These standards are a requirement from the Medicines & Healthcare Products Regulatory Agency (MHRA)
- Other brands of ice pack without a CE mark and authority number are NOT compliant, potentially hazardous and not suitable for medical or therapeutic use

#### **KoolKids Instant Cold Packs** Compact size is ideal for treating children

- Safe for use on all age groups
- Use to treat bruising and more general aches and pains
- No need to freeze Squeeze and shake to provide immediate soothing relief
- Pack can remain cold for around 20 mins at room temperature
- Add cover and apply directly to injured area
- Supplied in packs of 20 Instant Cold Packs
- Fully compliant and CE marked
- Save even more by stocking up, and receive FREE covers for your ice packs with our bulk deal

"These products are ideally suited to the needs of our school and I would recommend them to anyone."

#### 'Martyn's Law' Has Become Law /!\

The Terrorism (Protection of Premises) Act 2025, known as Martyn's Law, has received Royal Assent and become law.

Martyn's Law will mandate who is responsible for considering the risk from attacks, taking reasonable measures to prepare, respond, reduce harm and ultimately save lives with severe penalties for non-compliance.

As part of official preparedness guidance, ProtectUK strongly encourage all public and private sector organisations to "enhance first aid preparedness and response planning, so it takes into account the likely injuries which can be the result of a malicious event, such as a terrorist attack"

Public Access Trauma (PAcT) Kits have been designed expressly for this purpose and all organisations are recommended to have a "minimum of two" trauma kits on site within official guidance. Furthermore, under the existing Management of Health & Safety at Work Regulations 1999, all UK organisations must "Establish and give effect to appropriate procedures to be followed in the event of serious and imminent danger."

#### **Tourni-Key Plus**

A new innovation to empower individuals to improvise a low-cost limb tourniquet in emergency situations

- Creates a secure tourniquet when improvised with clothing such as ties, scarves and bandages
- Simply twist the device in the knot of the tourniquet until bleeding stops or slows, using the integrated hook to hold it in place
- · Tough, lightweight and easily visible
- Supplied with an 'anti-pinch' card to slip under the knot and reduce pain from skin bunching beneath the tourniquet
- · Each pack contains a Tourni-Key, triangular bandage, anti-pinch card and instruction leaflet

			Price	Each

#### Pack Qty Price Each AEC9429 PAcT Kit with Tourniquet Inspection Tag Pack £3.60 AEC9428 PAcT Kit with Tourni-Key Inspection Tag Pack £3.60

**First Aid Kit** 

#### Guidance Update: /!

A public access trauma first aid kit, also referred to as a PACT First Aid Kit, is a first aid kit which supports the treatment of immediate, life-threatening injuries such as major bleeding and unresponsiveness, which 'standard' kits do not. PACT First Aid Kits are designed to be used by anyone and support first aid efforts until the emergency services arrive. They have been developed with Home Office approval and "should be commonplace across the UK" within first aid and response plans. ProtectUK state that: "All public and private sector organisations are encouraged to include PACT First Aid Kits within the first aid provisions they have in place." A minimum of two kits is recommended for small premises, and more required for larger premises, distributed accordingly and made easy to locate/access.

#### **Public Access Trauma (PAcT) First Aid Kits** Created specifically to help members of the public save lives by treating major injuries in the event of an emergency

- Developed by experts across a number of fields, PAcT first aid kits are designed to be kept in public places for use in the event of major emergencies where everyday first aid supplies will not be sufficient
- Empowers and enables untrained bystanders to treat major bleed injuries, unresponsiveness and trauma until professional help arrives
- Kits contain heavy duty dressings, resuscitation shields and clear instructions for anyone to safely provide treatment, regardless of their level of training
- Sturdy green plastic cases are clearly marked with glow in the dark labelling for easy identification in low light, or choose NEW water-repellent soft cases
- Choose from kits with Tourniquets or Tourni-Keys (see page 37 for more

ProtectUK state that: "All public and private sector organisations are encouraged to include PAcT First Aid Kits within the first aid provisions they have in place." A key consideration for Martyn's Law compliance, which is now law.

## Martyn's Law and Guidance For Schools

The Terrorism (Protection of Premises) Act 2025, known as Martyn's Law, has received Royal Assent and become law. It requires organisations to take reasonable measures to prepare, respond, and reduce harm in the event of a terror attack, and will apply to education settings in its current form. Schools have their own quidance for major incident preparedness. We have developed straightforward products to expressly meet this quidance.

The latest Department of Education (DfE) guidance recommends that education settings consider compiling grab kits as part of their incident response plans. Kits should include equipment that may be required during an emergency such as "communications equipment, useful information, and Public Access Trauma first aid kits."

Clear roles for protective security and preparedness, including Security and Incident Leads, are also recommended.

#### **School Incident Grab Kit**

Official Department for Education (DfE) guidance recommends that education settings "should consider compiling a grab kit comprising of key items that can assist during an incident"

- Demonstrate your commitment to protect those in your care by taking practical measures to be prepared for terrorist attacks and other major incidents
- Includes essential items that may be required during an emergency, such as a Public Access Trauma (PAcT) Kit and 2 x Hi-Vis vests to identify key personnel
- Supplied PAcT Kit comes with heavy-duty contents that meet official standards developed by experts, approved by the Home Office and counter-terrorism bodies (see page 39 for more details)
- Choose from 3 high quality bag options. All are extremely easy to transport and have multiple additional pouches and pockets to add your school's plans, contact details, communication equipment, checklists, emergency medication and other essentials
- Choose from complete grab kits containing PAcT Kits and 2 x Hi-Vis Vests, or empty bags pre-printed with 'Incident Grab Kit' for creating your own grab kit

#### **Motor Vehicle First Aid Kits Compliant With BS8599-2** Effective since February 2014, BS8599-2 is the national standard for first aid provision within motor vehicles

- This latest standard makes it easier than ever before to ensure your motor vehicles are stocked with appropriate first aid provisions
- Kit selection is made simple by basing it on the number of passengers and vehicle type (see table below right)
- Durable containers clearly marked as being compliant with BS8599-2
- Trauma dressings are included for treating significant injuries caused by vehicle accidents

#### **First Aid & Emergency Care Points**

#### Ensure all your first aid kits can be easily located in an emergency

- Create an easy to identify focal point for all your first aid supplies in your school or workplace
- Each point is supplied with its own fully stocked kit containing supplies corresponding to each point; Emergency First Aid (see Standard First Aid Points), Burns First Aid, Emergency Eyewash, Body Fluid Clean-Up, Trauma and Bleed Control
- Warning panels advise when the kit is missing and how to order a replacement should one be required
- Slightly projecting signage at the top of the points allows for easier identification of supplies in an emergency
- Bright colours allow for increased visibility each kit has a label with a corresponding colour
- Wall mountable supplied with wall fixings
- Manufactured from 2mm rigid plastic
- Dimensions (H x W x D): 500 x 400 x 70mm
- Create emergency care stations by combining multiple points
- NEW Inhaler Points and affordable, all-in-one Stocked Anaphylaxis Kits now available - see pages 84, 86 and 88 for more information

The HSE state that companies should consider having one or more first aid rooms depending on the number employees or pupils, in order to provide adequate first aid provision. This is especially important for any workplace where higher risk activities may take place. First Aid rooms should also be appropriately sign posted with signs compliant to Health and Safety Regulations so they can be quickly and easily identified.

#### EPIPENS AND ANAPHYLAXIS KITS FOR SCHOOLS

There are 26,000 hospital admissions every year in the UK due to anaphylaxis. It is a serious allergic reaction that can be life-threatening and requires immediate treatment. Some studies estimate that 40-50% of allergy sufferers do not carry their EpiPen or AAI device on them regularly, despite being prescribed one.

The Human Medicines Regulations allow primary and secondary schools to buy adrenaline auto-injector (AAI) devices without a prescription, for emergency use on children who are at risk of anaphylaxis but their own device is not available or not working. Since 2017 we've been trusted to supply thousands of UK Schools with EpiPens and JEXT branded Adrenaline Injectors, anaphylaxis kits and accessories to help meet relevant Department of Health guidance.

We supply AAI devices in innovative and sustainable temperature-controlled packaging to ensure there is minimal delay, with most orders received next working day. The number of pupils with allergies or prescribed different types of AAI can vary each year. Our straightforward service has worked well for thousands of UK schools because it's easy to order how many pens are needed, periodically, at the lowest prices and at the same time as other essential provisions - saving time, money, and lives.

See page 84 for our NEW Anaphylaxis Kits to store up to 4 emergency anaphylaxis pens for instant access at an affordable cost, with flexibility on replenishment so you can adapt to changes in requirements without overpaying or over-committing. Prices for complete kits start at £249.95 with yearly restock costs as low as around £200. Orders must be placed by the Headteacher/Principal. To clarify expiry dates of AAIs before ordering, please contact our sales department on 0800 358 0085.

tment of Health state, "It is good practice for schools lding spare AAIs to store these as part of an emergency anaphylaxis kit which should include..."

- 1 or more AAI(s).
- Instructions on how to use the device(s).
- Instructions on storage of the AAI device(s).
- Manufacturer's information. An administration record
- A checklist of injectors, identified by their batch number and expiry date with monthly checks recorded.
- · A note of the arrangements for replacing the injectors.
- A list of pupils to whom the AAI can be adm inistered.

For children aged under 6 years:

6-12 years: or Jext 300

For children aged

For teenagers aged 12+ years: Epipen (0.3 milligrams) or Jext 300

See Pages 84-86 for EpiPens and Anaphylaxis Kits/ Storage or visit EurekaDirect.co.uk for the full range

#### NEW Anaphylaxis Awareness Training Only £21.70!

Around 680,000 children in England live with allergies—and 1 in 5 fatal food-anaphylaxis cases occur in schools. Schools have a legal duty under the Children and Families Act 2014 and government quidance to support pupils with allergies. That means clear policies, trained staff, and emergency planning, including spare AAIs. Learn how to recognise and respond to anaphylaxis, including the use of auto-injectors, with easy access Level 2 awareness training:

- Playtime of 1 hour and 4 minutes 31 videos in total automatically saves progress so you can easily pick up where you left off
- Fully CPD certified 3.0 hours CPD Certificate, and follows UK & ERC guidelines
- 100% online lessons with 24/7 on-demand video can be accessed on mobile
- Evidence Based Training Certificate and instant printable wall certificate
- · Weekly refresher video and ongoing access to training material, with expiration reminder

To order, quote product code as normal below as part of your order and we will then email you with access to the training portal and full instructions. Each individual will need a course purchased for them

**Eureka Anaphylaxis Kits** 

Up to 50% of allergy sufferers don't carry their adrenaline auto injectors (AAIs) at a given time, and anaphylaxis can affect anyone without warning. Around 680,000 children in England live with allergies. 1 in 4 first-time anaphylaxis episodes, and 1 in 5 fatal food-anaphylaxis cases occurs in schools. Dozens of lives have already been saved using emergency anaphylaxis kits.

- Affordable, all-in-one solution for safely storing, clearly identifying, and quickly accessing backup adrenaline auto-injectors (AAIs) during anaphylactic emergencies
- One-off purchase with flexible replenishment options to suit your plans as they develop. Choose from EpiPen or Jext devices depending on familiarity
- Available with or without wall mounted points, or for use with your own storage options, to help minimise unnecessary cost
- Choose from 2 or 4 pen kits to suit your premises and budget, with the flexibility to reduce or add to your kits over time as you see fit. Select the preferred brand and correct dosage based on age requirements (do not mix with prescribed personal medication)
- Compliant labelling and signage designs meet ISO Standards and Health and Safety (Signs and Signals) Regulations for universal recognition
- Easy to install and maintain. Supplied with inspection tags to support simple monthly checks, in line with DoH guidance
- Supplied tamper ties provide an added layer of security to deter vandalism, while remaining easy to release in an emergency
- Supplied with additional FREE signage to clearly identify kits and ensure they can be quickly located
- For a complete schools solution to help meet DoH guidance, choose our Anaphylaxis Kit with School Policy Log (see p83), supplied with free signage and AAI soft carry case (see p86)
- Free and Fast Delivery AAI devices are dispatched separately in innovative, sustainable temperature-controlled packaging

"Exceptional Service - Highly recommend to schools"

"Great prices, fast delivery, pleasure to do business with."

Ordering just got even easier! Order online, via email, or by calling 0800 358 0085 - orders for any kit containing AAIs must be signed by the Headteacher/Principal. State product code below and quantity required.

Empty kit boxes and wall points sold separately (see bottom of price grid), so you can easily add existing emergency EpiPen or JEXT devices to the correct dosage slot and benefit from having clearly marked and accessible anaphylaxis kits on your premises, all at an affordable cost, which you can manage as you see fit.

Buy from a trusted supplier established for over 25 years - we've supplied thousands of UK schools with emergency EpiPen and Jext devices - with 96% of our reviews 4 stars or better!

#### CHOOSING EMERGENCY ADRENALINE INJECTORS FOR YOUR SCHOOL

Individual AAI devices (Below): For replenishing existing supplies as required, or adding to your own existing storage options.

**Jext** 

AAI Starter Packs (Bottom of page): Store 1 or 2 emergency AAI devices, with additional DfE recommended contents. Ideal for smaller schools looking to offer emergency provisions. Anaphylaxis Kits (Page 84): Hold up to 4 emergency AAI devices across two different dosages, with instructions. Ideal for emergency use in medium to larger schools.

#### **JEXT Adrenaline Auto Injectors** Each IEXT device injects a pre-measured single dose of adrenaline for the emergency treatment of anaphylaxis

- Needle is contained within the JEXT before use and is automatically covered by the black needle shield after use
- · When you push JEXT firmly against the thigh, a spring activated plunger will be released, which pushes the hidden needle through the seal and the end of the black needle shield
- Available in 150mcg and 300mcg doses
- Buy individual devices as necessary to add to anaphylaxis kits (see page 84) or storage options (see Page 86) – ideal for staying dynamic with emergency plans without overspending or overcommitting
- · Fast, free delivery in temperature controlled packaging
- Easy ordering using the AAI form online at Eurekadirect.co.uk, or via email, or by calling us on 0800 358 0085.

Code	Description	Size (mcg)	Price Each
HR69	JEXT Adrenaline Auto Injector	150	£99.99
HR70	JEXT Adrenaline Auto Injector	300	£99.99

#### **EpiPen Adrenaline Auto Injectors** Designed with a blue safety cap and orange needle cover - "Blue to the sky, orange to the thigh"

- Oval shape for easy grip with illustrated instructions
- Viewing window so you can make sure the solution is clear and colourless
- Unique swing-action process, offers reliable adrenaline delivery during the stress of an anaphylactic episode
- · Bright orange needle cover keeps the needle covered before and after use
- Available in 150mcg and 300mcg doses
- Buy individual devices as necessary to add to anaphylaxis kits (see page 84) or storage options (see Page 86) - ideal for staying dynamic with emergency plans without overspending
- Fast, free delivery in temperature controlled packaging
- Easy ordering using the AAI form online at Eurekadirect.co.uk, or via email, or by calling us on 0800 358 0085

Code	Description	Size (mcg)	Price Each
HR71	EpiPen Adrenaline Auto Injector	150	£99.99
HR72	EpiPen Adrenaline Auto Injector	300	£99.99

£**99**,99

The Department of Health state "Schools are advised to hold an appropriate quantity of a single brand of AAI device to avoid confusion in administration and training. Where all pupils are prescribed the same device, the school should obtain the same brand for the spare AAI. If two or more brands are currently held by the school, the school may wish to purchase the brand most commonly prescribed to its pupils". EpiPens are currently the most common brand of AAI in the UK (hence why many people know AAIs as 'EpiPens'), however we also offer JEXT devices to enable schools to make an appropriate brand choice.

#### **AAI Wall Points**

Comply with the Department of Health's guidance, which states that "AAIs must be kept in a safe and suitably central location accessible to all staff at all times but out of the reach of children."

2 x 150mg, 2 x 300mg

- Create an easy to identify, highly visible and accessible point to ensure your AAI Kit is "available for use at all times" in your school
- · Emergency devices must not be locked away, but be kept out of reach of children whilst remaining accessible in an emergency, points are an excellent way of meeting official guidance
- Save essential time in severe anaphylaxis emergencies, this all-in-one solution will help avoid delays in administering adrenaline to prevent fatal outcomes
- Supplied with tamper ties, providing an added layer of security to deter vandalism while remaining easy to release in an emergency

Please note: We are unable to accept returns on pharmaceutical products. Orders for any items containing an AAI or Inhaler must be placed by the Headteacher/Principal. Pharmaceutical items/emergency devices will be despatched separately to other components in the order

Head Teachers are authorised to purchase emergency stores of inhalers as backups should a pupil's device be lost, broken or mislaid. Ordering just got even easier! You can now order an inhaler, or any product that contains an inhaler online, or alternatively, please use the order form on page 90.

Salbutamol 100mcq Inhaler Inhaled doses of salbutamol are fast acting, making breathing easier within minutes

 Great value option for your emergency school inhaler provisions

• Each inhaler contains approximately 200 doses

Price Each HR06 Salbutamol Inhaler £7.10 £6.50 £5.80

## £5.80 PER INHALER Salamol **CFC-Free**

#### Be sure to regularly check the expiry dates of back up inhalers and replace as necessary

£7 80

PER SPACER

#### **Volumatic Spacer** Large-volume spacer device for use with Ventolin Inhalers

• Larger spacer makes it easy to ensure that the medication has been taken correctly and in full

• Overcomes any difficulties with pressing the inhaler and breathing in at the same time

· Allows more medicine to reach the lungs direct, where it is needed most, and minimises wastage being held in the mouth

· Remember to release a puff of the inhaler before use to ensure it is clear and safe to use

· Suitable for children and adults

Code	Description	Qty	1-3	4-6	7+
HR24	Volumatic Spacer	1	£8.60	£8.35	£7.80

#### **Able Spacer A2A** Compact size makes it easier for a child to use and for staff to store away

 Designed with visible valve movement, which helps the carer to see if the patient is inhaling through the spacer • Overcomes the problem of

breathe and press co-ordination,

offering easier inhalation			Price Each		
Code	Description	Qty	1-3	4-6	7+
HR03	Able Spacer A2A	1	£9.55	£9.15	£8.75
HR33	Infant Mask	1	£6.55	£6.30	£5.75
HR34	Child Mask	1	£6.55	£6.30	£5.75
HR35	Adult Mask	1	£6.55	£6.30	£5.75

#### **Able Spacer 2** Compact size makes it easier for a child to use and for staff to store away

- Made from durable transparent antimicrobial plastic, providing increased protection from contamination and inhibiting microbial growth
- Clear plastic allows staff to ensure that the child inhales the medication fully and correctly
- Product is for single use only under the guidance on emergency inhalers for schools
- Masks available separately

#### **Able DispozABLE Spacer** Specifically designed for use in schools, this spacer is a low cost, fully disposable, single use option

• Eliminates the cost of buying spacers that can only be used once completely disposable

• Simplistic design means that it can be quickly assembled and made ready for use in an emergency

• All instructions on use are printed on the spacer itself

• Extremely cost effective with no additional masks needed

· Can be used with any Salbutamol inhalers

#### **Inhaler Emergency Points**

Department of Health guidance states that schools should "ensure that the inhaler and spacers are kept in a safe and suitably central location... to which all staff have access at all times, but in which the inhaler is out of the reach and sight of children"

- Create an easy to identify and accessible point to ensure "all staff have access at all times to inhalers in your school"
- · Save time during asthma attacks with this allin-one solution, ensuring quick action to keep
- Supplied with tamper ties providing an added layer of security to deter vandalism while remaining easy to release in an emergency
- Includes a choice of either 2 Salbutamol Inhalers or Ventolin Evohaler Inhalers and a variety of kits
- Unstocked points also available and compatible with our full range of Inhaler Starter Kits (see page 89) and Storage boxes
- Wall mountable and made from 2mm Rigid Plastic. Supplied with wall fixings for easy installation

Ordering just got easier! To order online, you can now simply add your products to the basket as usual. At checkout you will be prompted to complete a form including a signature from the headteacher at the named school. Alternatively, you can complete the order form on page 90. Remember to ensure that your head teacher completes the order form with the following:

• Name of the school for which the product is required • Purpose for which the product is required (Declaration of Intent) • School Head Teacher / Principal signature • The number of inhalers within your order (including any within kits). Simply return your order form via Fax, Email or Freepost to: Freepost EUREKA

#### • Standard Combos are supplied with 5 reusable anti-microbial plastic spacers and Economy Combos are supplied with 10 disposable spacers • All combo packs are supplied with two emergency inhalers as standard • Specific details regarding the Inhalers and Spacers can be seen on page 87

£180

#### **Brayden Baby Resuscitation Manikin**

This advanced CPR manikin simulates an infant cardiac arrest scenario, providing a realistic and comprehensive training experience

- · Ideal manikin for Paediatric BLS, EPALS, and EPILS training
- Compression to 1/3 of the depth (4 cm), mimicking realistic paediatric chest compressions for effective training
- Features a large occiput, allowing the baby to lie with its head in the correct flexed position
- Open and connected mouth and nose provide added realism during ventilation exercises
- Mimics a real baby's jaw action for accurate jaw thrust/lift manoeuvres
- Includes ventilation and chest compression depth indication lights that offer real-time feedback

Code	Description	Price Each
AEC9252	Brayden Baby Advanced	£1,012.00
AEC9262	Brayden Baby Pro	£1,152.00

#### Practi-Man Female Skin Light / Dark

Enhance realism and effectiveness in CPR Training with Practi-Man Female Skin by instantly converting your Pract-Man CPR Manikin (see above) into a realistic female torso

AEC9153

- · Statistically women receiving bystander CPR have up to 23% lower survival rates compared to men
- Dramatically improve the quality of CPR training sessions, with easy attachment and removal
- · Helps overcome awkwardness and fears associated with performing CPR on women
- Instills confidence in performing CPR with realistic simulation

# AEC9255

AEC9253

#### **Brayden CPR Manikins**

#### Award-winning tool designed to revolutionise CPR training

- Equipped with three sets of interrelated LED lights that illuminate in direct relation to the depth and rate of compressions that clearly illustrates the overall the quality of CPR being performed
- Seeing how CPR is having a direct effect on the flow of oxygenated blood to the brain increases the speed at which skills can be both learned and retained
- Oral and nasal passages which allow realistic nose pinch
- · Head tilt and chin lift for opening airway
- Highly realistic chest movement with correct ventilations
- Transform your existing Brayden Adult Manikin into a paediatric training tool with the Junior Conversion Kit, to provide realistic and effective training

ProtectUK's counter terrorism first aid preparedness guidance states that 'stretchers are an important first aid provision and having them in place is much better than to not'. Additionally, they recommend that such 'first aid provisions should be in publicly accessible locations and available for use by any person regardless of their level of training' and '...support the administering of immediate, lifesaving first aid.' For more information, visit www.protectuk.police.uk/first-aid-provisions

#### **CODE RED Evacuation Chair** Fantastic value for money - provides all the benefits of more expensive evacuation chairs for a much lower price

- · Incredibly easy to deploy and use - only requires a single operator
- Tracked design at rear of chair ensures a safe rate of descent down
- Aluminium construction is strong and durable but light in weight
- Adjustable head pad and patient restraint
- Seat area is easy to wipe clean in the event of body fluid spills
- Supplied with cover and wall bracket

#### **Essential All in One Defibrillator Bundles**

Save up to 10% over buying individual items separately. A simple way to ensure your school or workplace has an accessible and clearly marked defibrillator

- Includes a best selling Mediana A15 automatic defibrillator with battery pack, prep kit, carry case and paediatric pads (see page 101 for further information)
- Carry cases keep the defibrillator safe and secure whilst ensuring ease of transportation in the event of an emergency
- Includes appropriate self-adhesive signage to ensure defibrillators and trained users can be identified and accessed in an emergency, as well as additional signage to deter theft or misuse
- Includes a maintenance record book to help you stay compliant with DfE guidance by routinely tracking battery and defibrillator pad expiry dates, to prompt reordering of critical components
- Choose from 3 mounting options for easy access in the event of an emergency:
- A simple but sturdy metal bracket (supplied with separate defib guidance poster)
- An informational station (pictured)
- A secure and alarmed AED cabinet ideal for outside use

Further information on the above accessories can be found on pages 97 and 102

Code	Description	Price Each
AEC8204	Essential All in One AED Bundle with Bracket	£1,102
AEC8205	Essential All in One AED Bundle with Station	£1,125
AEC8206	Essential All in One AED Bundle with Cabinet	£1,437

As per DfE AED Guidance for schools, external cabinets are recommended to be locked when placed outside the school premises, ensuring protection from potential theft or vandalism. Enhance emergency preparedness, ensure rapid access to lifesaving equipment, and demonstrate your commitment to safety

#### **Metal AED Wall Cabinet With Glass Door** Constructed from a white powder coated metal with stone enamelled finish and toughened glass door for durability and visibility

- · AED indoor wall cabinet sounds an alarm instantly when the door is opened
- Alarm improves security and acts as a deterrent against unnecessary tampering
- Suitable for indoor use only. Maintain in dry, dust-free conditions
- Quick release push-button allows quick access in an emergency
- Internal Dimensions: 45.4 x 29.7 x 14.2cm

Code	Description	Size (H x W x D) mm	Price Each
AEC8347	Metal AED Wall Cabinet With Glass Door	460 x 300 x 145	£140.00

#### **Public Access Defibrillator Cabinet** Tough polyethylene body is corrosion and impact resistant with excellent levels of thermal insulation

- Metal hinges with security fixings minimise the chances of damage or vandalism
- Cheap to run averaging £2 £3 per year
- IP66 rated against dust and water ingress
- Three bolt wall fixing system ensures stability even on uneven surfaces
- LED lighting offers efficient internal illumination making the cabinet highly visible at night time
- Offers excellent protection from the elements with a thermostatically controlled heater to prevent freezing and an air circulation fan to prevent condensation
- Unique location code allows emergency services to pin-point your location
- Supplied with a 10 year warranty
- Weight: 10kg

Code	Description	Size (H x W x D) mm	Price Each
PDFC2	Public Access Defibrillator Cabinet	625 x 440 x 285	£600.55
AEC8162	Public Access Defibrillator Cabinet - Non Lockable	625 x 440 x 285	£577.45

#### **Defibsafe 3 Outdoor AED Cabinet** Protect lives and ensure your facility is ready for cardiac emergencies

- Designed to house and protect AED defibrillators, such as the I-PAD Automatic AED (see page 99)
- Unmatched protection with the highest industry-rated IP66 rating, ensuring dust-tight and water jet protection Enhanced security with a digitally
- coded locking mechanism provides enhanced protection against unauthorised access
- Durable construction made from high impact-resistant ABS and Polycarbonate
- Built to withstand extreme weather conditions

#### **Zoll AED Plus Demo Kit**

#### Allows you to demonstrate real CPR and defibrillation

- Demo Kit comes with a CPR-D Demo Pad and a manikin in a large carry bag
- · Simulator mimics heart rhythm for AED Plus demonstration using the Zoll AED Plus unit
- To complete the set, buy the simulator and demo kit for a realistic demonstration
- · Clinical AED Plus and simulator not included

Code	Description	Pack Qty	Price Per Pack
AED11	Zoll AED Plus Demo Kit	1 Kit	£643.00
AED19	Zoll AED Plus Simulator	1 Simulator	£615.55

Be sure to regularly check the expiry dates of pads and batteries on your defibrillator and replace them if necessary

There are two types of AED - fully automatic and semi-automatic. If a shock is needed, semi-automatic AEDs prompt rescuers to press a shock button. A fully automatic AED is designed to give a shock automatically, if needed, without the rescuer having to push a button to deliver that shock.

#### iPAD SP1 Semi-Automatic AED

Supplied with one battery pack, one carry case, one casualty prep kit and two adult paediatric pads

- Easily switch from adult to child mode without changing pads
- Electrode pads are stored connected in a clear compartment on the underside of the unit
- The orange shock button will flash and need to be pressed when a verbal prompt to do so is given (if pressed by accident a shock will not be given)
- The unit detects if CPR is or isn't being performed giving verbal guidance accordingly
- LCD status indicator shows battery life, pad status and unit status
- An ambient noise detector measures levels of background noise and adjusts the volume of voice prompts as necessary

#### Ensure You Have A Defib Maintenance Procedure In Place

Many schools and public spaces now have defibrillators on site. It is recommended to have regular inspection and maintenance procedures in place to ensure devices are functioning properly, have not been tampered with, and components are present and in date.

#### **Defibrillator Maintenance Record Book** Ensure compliance and keep your AED in optimal condition

- Implementing routine AED maintenance procedures could be the difference between life and death
- Track battery and defibrillator pad expiry dates and prompt reorder of critical components
- Convenient A4 size with 50 pages fits in standard folders and first aid stations

			Price Each		
Code	Description	Qty	1-2	3-4	5+
AEC8280	Defibrillator Maintenance Record Book	1	£5.88	£5.15	£4.45

#### **Universal AED Wall Bracket** Sturdy metal bracket is ideal for mounting any AED on a wall

- Green design helps create a visually recognisable focal point
- Ensures your AED is easily accessible in an emergency

Code	Description	Size (H x W x D) mm	Price Each
AEC5530	Universal AED Bracket	123 x 190 x 95	£53.70

#### **Defibrillator Inspection Tag Kit** Maintain the safety and reliability of your AED

- Simple, write-on tags provide a quick and easy solution to record defibrillator maintenance checks
- Tamper ties to securely attach to your
- Durable tear resistant material

#### Mandatory signs

Mandatory signs help inform staff, students, and visitors of compulsory procedures, such as hand washing or informative signage

- Complies with EN ISO 7010 graphical symbols regulations
- Ideal for positioning in various areas around your school where mandatory safety measures are required, such as:
- Science labs where students and staff handle chemicals
- DT classrooms where machinery may be used
- Reception areas where visitors may require directional guidance
- Washrooms and toilets to help reinforce handwashing policies and behaviour

#### **6L Water Fire Extinguisher Exceptional value for money. Popular for tackling** most common fire risks in a wide array of premises

- Offers protection against class A fires with a fire rating of 13A
- Easy to manoeuvre and offers at least 9 seconds of discharge time
- Squeeze grip operation for ease of use
- Features robust internal polyethylene lining and corrosion resistant finish
- Integrated water spray nozzle
- Approved 35Kv Dielectric test
- Tested in the UK for use on class A fires. with Kitemark certification to BS EN 3.
- Supplied with a 5 year guarantee, FREE wall mounting bracket, and a FREE sign for identification

Code	Description D	imensions(mm)	Type	Weight (kg)	Fire Rating	Price Each
AEC8931	6L CTX Water Extinguisher	535 x 162	Water	9.3	13A	£32.67

#### **6L Multi Mist Fire Extinguisher**

Generates a fine mist of water droplets with a surface area coverage many times higher than water in its natural state

• Fights class A and F fires with fire ratings of 13A and 25F

- Deprives fires of oxygen and heat: droplets turn to steam on contact to envelope flames
- No harmful chemicals or synthetics
- Easy squeeze grip operation with additional valve control to temporarily interrupt flow
- · Corrosion and UV resistant finish will stand the test of time
- BSI Kitemarked to BS EN3 and manufactured to Safety Directive PED/2014/68/UE
- Supplied with a 5 year guarantee, FREE wall mounting bracket, and a FREE sign for identification

	Code	Description	Dimensions(mm)	Type	Weight(kg)	Fire Rating	Price Each

- Supplied in two parts for simple push-together assembly
- Available for one or two extinguishers

#### £47.25 AEC1758 Extinguisher Stand - Capacity for 2 Extinguisher 750 x 620 X 300 £68.25

#### Simpler Recycling Now In Effect - Comply Today

Simpler Recycling came into effect on 31st March 2025. The legislation introduces mandatory recycling requirements for businesses, schools, public sector organisations, and charities across England for separating and streamlining different types of waste. Under DEFRA rules, the new default requirement for most households and workplaces will be 4 containers for: v residual (non-recyclable) waste, v food waste (mixed with garden waste if appropriate), ✓ paper and card, ✓ all other dry recyclable materials (plastic, metal and glass)

These may be various container types, including bags, bins or stackable boxes. With penalties for non-compliance, it is essential that receptacles for the 4 different waste types are clearly marked to ensure that simpler recycling protocols are followed on your site. Proper signage and systems also visibly demonstrate efforts made towards compliance and the operation of well-run premises in the event of an inspection.

#### **Buddy Bins**

#### Novelty recycling and litter bins perfect for younger children

- Brightly coloured bins encourage children to recycle and tidy up
- Manufactured from strong and durable plastic which is easy to clean
- WRAP compliant lids and labels
- Supplied with or with liner, 75L capacity
- Simpler Recycling compliant
- For Buddy Bins without liners, see online at EurekaDirect.co.uk

	<i>'</i>

#### **WRAP Recycling Signs** Implement streamlined waste management solutions

- Display clear recycling signage to advise employees, students and visitors how to separate waste correctly
- Add colour coding labelling to your bins in line with DEFRA's guidance to 'easily identify which bin is for what waste stream', ensuring efficient and accurate waste separation
- Make sure your business is compliant with the UK's Waste Regulation 2011, requiring all UK businesses to separate paper, plastic, glass and metals from general waste
- See online for more information

# **Courses**Essential ONLINE Training Courses

We are delighted to have partnered with ProTrainings to provide our customers with discounted access to market leading online first aid, safety and security training courses. ProTrainings courses are all CPD certified and accredited to the highest standards, including status as a Provider of Training Excellence as well as a Diamond Approved Centre and endorsement from Training Qualifications UK body (TQUK).

Market leading CPD certified training - put together and delivered by experts

Ongoing access to training materials after completion

Fully accredited to the highest quality standards

40,000 5-Star Reviews – thousands of UK companies use ProTrainings

Instant Access to online courses through EurekaDirect

Save up to 25% off RRP – order at the same time as sorting your essential first aid

#### **Testimonials** ★★★★★

Here are some positive comments from over 40,000 positive ratings on ProTrainings courses:

A far more convenient way for me to organise first aid training for myself and my employees

This is an excellent, well presented course that is easily accessible to all. We would recommend it to any small company for their staff without hesitation

Great cost effective way for small businesses to afford providing training to all members of staff without impacting too much on the day to day running of the business
