Eco-Friendly
Purchasing 100% recycled plastic furniture saves thousands of milk bottles from landfill.

REDUCE, REUSE, RECYCLE.

TURNING PLASTIC BOTTLES INTO OUTDOOR FURNITURE

KEY FACTS

- Tonnes of plastic ends up in landfill every year and will take hundreds of years to decompose. Reusing the material has great advantages for the environment
- One of our 1500mm recycled plastic benches comprises around 2,520 milk bottles
- Recycled plastic will last up to 5 times longer than the timber equivalent
- Due to the non-porous nature of the material, recycled plastic will never rot, crack or splinter
- Our furniture is maintenance free meaning it doesn't require annual sanding, staining or painting

TESTIMONIALS - WHAT OUR CUSTOMERS SAY

St Mary's School

"We recently received new playground equipment from NBB Recycled Furniture including a First Mate Play Boat and a Junior Square Picnic Table. The children particularly love the boat and this week they have travelled to 'Legoland, Brownsea Island and Poole' on it!"

Chessington

"We looked at various options for outdoor furniture and made the decision to go with NBB. The furniture they produce exactly matched our criteria of being attractive, hard-wearing, safe and environmentally friendly.

It is really pleasing to have found a supplier that can produce the furniture we require so our guests feel welcome as well as helping us to achieve our environmental goals."

Farmer Palmers

"Our great working relationship with NBB Recycled Furniture began 6 years ago, when we purchased and they installed, 10 fantastic picnic benches in 2013. They are still in excellent condition. When NBB approached us to see if we would like to be the first ever installation of their new Buddy Balance trim trail, we felt honoured to be chosen.

Having sustainable play equipment made from recycled plastic fits perfectly with our ongoing commitment to reduce our environmental impact. We know it will be a huge hit and if a huge hit, we will be asking if we can keep it."

As stated by British Standard BS8300-2:2018; "a building should be designed, built and managed in a way that is inclusive. Designing to address and integrate the access requirements of all people, irrespective of their personal circumstances as a part of mainstream design, achieves an inclusive environment which is always preferable to designating separate or specific features" (BSI Group, 2018).

Raw Materials

Recycled Plastic is the perfect material for outdoor furniture / fencing / decking

- The timber is manufactured from post-consumer and post-industrial waste plastics which is converted into planks. It can be used as an alternative to traditional wood timber
- Available in finishes similar to wood or vibrant colours
- There are many benefits to replacing wood timber furniture with recycled plastic
- **Cutting service available**, price on application

Once you have an idea of the planks and quantity you wish to order (including cut size if applicable), please contact our friendly sales team on **0800 1777 052** for a delivery cost.
