

## We Are Delighted To Announce That Over

## 125 Million Plastic Bottles Have Been Recycled

Into Maintenance-Free And Eco-Friendly Outdoor Furniture

# 125 million bottles is...

More Than Once Around the World in Length...

372 London Buses

...or 372 London
Buses in Weight...

### Did you know?

1kg of material is derived from 28 2-litre HDPE plastic bottles.

...or 100 Olympic Swimming Pools in Volume!

As we all know, the amount of plastic waste each year is staggering, and our eco-friendly recycled plastic furniture range can help save thousands of plastic bottles from entering landfill.

We manufacture all our products from 100% Recycled High-Density Polyethylene (HDPE). When recycled, it is an extremely hardwearing, versatile material, making it a perfect choice for all-weather outdoor furniture.

### **Closed-loop Recycling**

**Our Manufacturing Produces Zero Waste** 

Any offcuts or plastic waste material is returned for recycling!

The parts are transformed into our strong and robust recycled plastic furniture

### Step 3

With the aid of melting, the granules are combined in moulds or pushed through a die tool and cooled via water to produce high quality finished parts

High-Density
Polyethylene
(HDPE) plastic
bottles are
collected

### step 2

At the reprocessor, the recycled plastic is washed and cleaned and broken down into granules
